FIRE ENGINEERS WANT ADDITION

Selectmen received a notice from the Board
of Fire Engineers that application will be
made by them for a variance which would
allow an addition to be added to the fire
station. Selectman William Hubbard said
that he opposes the move and that the Board
of Selectmen had agreed previously to form
a Needs Committee to explore a public safety
facility for town safety equipment. Three
volunteers from the general public are needed
to serve on the committee. Those interested
are asked to contact the Selectmen's office
at the Town Hall.

ASK BRIGHTER STREET LIGHT

Wayne Walega requested the Board of Se-
lectmen to ask for a higher wattage street light
on the pole adjacent to his New Design, Inc.
business on North Street. Selectmen agreed
that the increased traffic warranted the request
and will contact the New Bedford Gas & Edi-
son Light Company to have the bulb changed.

ASK STREET ACCEPTANCE

William Bancroft of 10 Gosnold Street asked Selectmen how to proceed toward town acceptance of that street which he said is in bad condition. Selectmen advised that he contact the executor of the estate of the deceased developer to determine the attitude of the owners of the street before any other steps are taken.

PROBLEM WITH TOWN BOARDS

Rogert G. Hohne of 20 River Road told Selectmen he was recently denied a variance to keep an above ground swimming pool on the spot where it stands. He outlined a number of instances where he had been given conflicting information, sometimes from different members of the same Board causing delays and increased costs. He said his house was delayed 8 weeks because of confused set-back information. In the matter of the swimming pool, he said no on site inspection had been made and because of the topography of the land he felt that no proper evaluation could be made without it.

Selectmen agreed that they will contact the Board of Appeals to find out why the de-

cision was made and relay the information to Mr. Hohne as soon as possible.

The Quails would much rather follow our red brick path.

Both Barry and Nancy Quail say they like banking with us because of the many, many services we provide and the way we treat them.

Whether they bank inside, or outside at one of our drive-up windows, doesn't matter. The Quails, like so many of our customers, would rather take a few minutes longer to drive to our place than bank at several others closer to home.

The way we see it — just like the Quails of New Bedford — there are banks and there is our bank.

Even the younger members of the family — Tammi-Jean and Kimberly — like banking with us.

FIRST CONGREGATIONAL CHURCH OF ROCHESTER - RESTORATION FUND

Following initial meetings at Minister's
Rock in Marion dating from 1683, Rev. Samu-
el Arnold was invited to settle in Rochester in
1697 and the First Church of Rochester was
organized on October 13, 1703. Since that
time, the church has served the community
continuously, and we look forward to the
celebration of our 275th anniversary in 1978.

The present meeting house is the fourth
structure built for that purpose. Dating from
1837, it is the uniquely beautiful Christopher
Wren design. It is now the intention of the
members and friends of the church to restore
the outside of the building to original con-
dition. In order to do this, a Restoration

kept out of. Yet, adults can get in quickly.

DUFF PLUMBING ANNOUNCES

We have added another truck to our fleet expressly for the Marion, Wareham & Rochester area residents. We have had such an increase in calls that we have decided to install a direct, toll-free "Hot Line" for these customers. We have our plumber, Chet, who is a local resident and knows the area well. He will have a well-stocked supply of plumbing needs right at hand.

Are you disappointed to find yourself waiting two days for a plumber, then have him arrive with a helper to carry the tool box, and receive a bill for two men? We pride ourselves on sending one man on service calls.

We take good care of our old customers; it is new customers we are looking for.

"Dames at Sea"

AT ART CENTER

"Dames at Sea", a student production directed by Nancylee Gaucher, is scheduled to open on Friday, October 21st. The Young Peoples Workshop's successful summer continues to be an outlet for the talents of many students in this area. The group of twenty or more is an enthusiastic and hard working bunch. Because of their interest and efforts, the Marion Art Center is establishing a scholarship fund to award a deserving young thespian. Proceeds from "Dames at Sea" will be used to begin this fund. The show will run Friday, Saturday and Sunday evenings with curtain time at 8:00 P.M. on Friday and Saturday and 7:00 P.M. on Sunday. Reservations may be made by calling the Center (748-1266) during gallery hours (1 to 5 P.M.) or Mrs. Gaucher (763-4264). The Center hopes to have a full house every night in support of our young talent.

The event was held at the Colonial Airways hangar at the New Bedford Airport. Over fifty people were screened on the Mobile's vision tester and the tonometer (glaucoma check). In appreciation of their effort, the club received a plaque with appropriate inscription.

The Eyemobile offers a preliminary check of possible vision defects. If according to the machine's results, there seems to be a chance of a problem, the visitor is notified with a suggestion that further ophthalmic testing might be in order.

On Monhegan

ON MONHEGAN Editorial, D.C.J.

The thing that makes an island so interesting is its isolation from the mass of the continent. Just as with people it takes character to stand alone. Islands each have individual character. Within sight, on a crystalline Fall day, we have our wealth of islands in the Elizabeth chain anchored by Cuttyhunk. Over our horizon sits Nantucket preserved almost intact from the last century with stately mansions and beaches of great beauty and shoals of shifting mystery. Because it takes a boat to reach an island there is a sense of adventure to the trip. Discovery at sea is the faint smudge under the cloud. For the islander, a breed apart, each boat landing is an event to be noted - a contact with the mainland. So, islands are great to visit. They are first landing places for the explorers of the old world. They are settled by people who value peace and are willing to live a simpler life without most contemporary comforts. People who are willing to defend their rights against a remote state control, who would secede, are strong and proud.

Monhegan, in Maine, is such an island. It rises from the sea like a humpbacked whale. The visitor walks the paths that connect the harbor dock to the forest and on to the cliffs on the far side. It's a world apart 1 mile by 2 1/2 miles. Wild flowers decorate its steep cliffs and small houses line its paths. On a wedding day, the town closes and all the residents attend. The Summer is a time of constant visits by pleasure craft and tourist boats but imagine the winter. The gales blow hard off the Maine coast and constantly. The small weathered homes full of independent people must grow interdependent as the chill bites the cliffs and the connecting boats can't make the ocean trip.

Boat leavings from an island are also an event. There is a sadness in leaving an environment so basic and unspoiled. It's like ending a visit to great grandparents who demanded so little material and so much from within themselves.

"CONDUCT UNBECOMING"

"Conduct Unbecoming", a successful play in both New York and London, is the first production of the season of the Southeastern Massachusetts University Theatre Company.

Curtain goes up at 8 P.M. in the SMU auditorium on October 14, 15 and 16.

"Conduct Unbecoming", written by Barry England and set in a British army outpost in India, is a mystery with psychological and political overtones that are contemporary.

The play is directed by Angus Bailey, assisted by Norman Byron.

"It has the suspense of a who-done-it," says Byron, "and the pertinence of Pinter or John Osborne. It has an appeal to audiences of all ages and types."

The cast includes: Mark Abelson, Barry Smith, Len Travers, Paul Kuliga, Bill Begley, Tim McCarthy, Rick Rousseau, Rick Shlebeck, John Ciccotelli, John New, Randy Dagley, Mark Vierra, Mike Mulrooney, Manny Martines, Holly Parker, Joanna McQuillan, Sheila Furtado, Kathy Cabral, Pat Denub, Sue Ses-

sler, Kathi Sace and Nina Catelli.

Set design is by Mary Conley. Jill Araujo and Len Travers are in charge of properties. Carpenter is Larry Houbre, lighting is by Norman Byron and costumes are by Holly Parker.

For tickets call SMU at extension 765.

Season tickets for all six SMU Theatre productions are also available.

The other plays are: "Raisin in the Sun" on November 18, 19 and 20; "Sherlock Holmes" on December 16, 17 and 18; "Rosencrantz and Guildenstern are Dead" on February 10, 11

Tobey Hospital

WORKSHOP HELD AT TOBEY

In its quest to keep abreast of the latest techniques and procedures in Blood Banking, the staff of the Tobey Hospital Laboratory, under the direction of Chief Technologist John Kelenosy, sponsored an Auto-Immune Hemolytic Anemia Workshop on October 6. The day-long program presented by Ortho Diagnostics of Ravitan, New Jersey, attracted laboratory personnel from South Shore, Fall River, New Bedford, Cape Cod, and lower Rhode Island area hospitals.

Members of Tobey's Laboratory are always alert to new concepts of Blood Banking and travel extensively to attend workshops in other areas of the state. For this reason, it was a challenge to host a workshop, inviting other technologists to share in Tobey's facilities and techniques.

A great deal of information was gained from the presentation which now becomes another part of the expertise of the Laboratory Technologists who keep abreast of the changes and discoveries so common in Blood Banking.
